-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Group I, claims 1-17 and 41-57 in the reply filed on 10/28/2005 is acknowledged.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8, 11-17, and 41-57 are rejected under 35 U.S.C. 102(b) as being anticipated by NELSON ET AL (US 5771665).

NELSON ET AL discloses a method and apparatus for filling a bag (30) with product in which a fill tube (38) is lowered into an opened bag until its end is at the bottom of an open bag and is lifted out as the bag fills.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 9-10 rejected under 35 U.S.C. 103(a) as being unpatentable over NELSON ET AL, which substantially discloses the claimed invention but does not disclose weighing the bag after it is filled.

However, the weight of the product in the invention of NELSON ET AL is weighed prior to filling and it would have been obvious to one of ordinary skill in the art at the time the invention was made to weight the product when it had filled the bag in order to provide a verification of the correct fill level.

***Reference Citations***

6. The following prior art made of record and not relied upon is considered pertinent to Applicant's disclosure:
- MUCKENFUHS ET AL discloses a method and apparatus for loading product into a bag in which the loading apparatus is moved to the bottom of the bag and withdrawn while the product is loading.
  - INMAN ET AL discloses a method and apparatus for loading product into a bag.

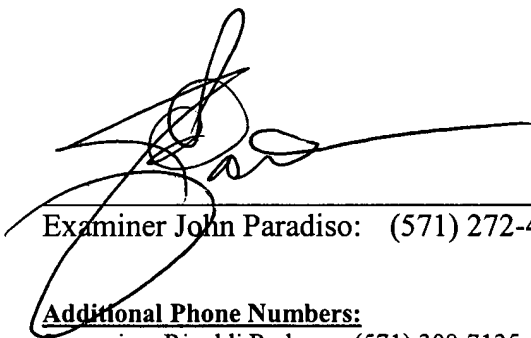

Art Unit: 3721
